# Con't Snow day activties 

*Counting Cereal-gather a box of cereal, 3 small cups, plate, and a deck of cards.
Pull out a numbered cards out of a deck to use and place the cups in front of your child. Place cereal in a small, easy to reach pile on a plate. Begin by placing a cup on a number two card. Have your child count out to pieces of cereal into the cup. Do the same with number three and number five card. After these three rounds, return the cereal to the plate and the cards to the deck. Then, have your child draw 3 cards from the deck and identify the numbers. Place the cards under the cups and instruct your child to count out the cereal to match the numbers on the cards, placing one piece of cereal at a time into the cup. Encourage your child to continue practicing one-to one correspondence by counting as high as he/she can.

Return this portion of the paper and write the following activities you did with your child on his/her snow day.

Child's name Parent's name

Activities I did with my child:
1.
3. $\qquad$
2.
4. $\qquad$
