FIELD TRIP PERMISSION

In order to help parents, children, and the school, we are asking the parent's/guardian's written consent to take students on trips in the School District area during the school year. This authorization will eliminate the need for special permission before each trip and will assure each child the opportunity to be included in such excursions. Field trips may be either in Renville (walking) or to nearby locations by bus. Caution and safety are exercised at all times by the staff. Notification will be given when a trip is planned.
